Indian rupee estimates • clickable supplier/product search links • prototype quantities

Budget spread: Low estimate ₹1,910 • Typical estimate ₹2,695 • High estimate ₹3,535 • Difference ₹1,625 (within ₹2,000). Shipping excluded.

No.	Component	Part / specification	Qty.	Low (₹)	Typical (₹)	High (₹)	Clickable supplier links
1	Controller	ESP32 DevKit V1 (ESP32-WROOM-32)	1	340	420	500	Sonani Electronics | TecnoMate
2	Skin temperature	MAX30205 breakout module	1	800	900	1,000	Supplier search
3	Pulse sensing	MAX30102 breakout module	1	90	170	250	Robokits India | Techtonics
4	Motion sensing	GY-521 / MPU6050 board	1	75	140	200	Sonani Electronics | Probots
5	Room temperature	AHT20 breakout module	1	45	120	200	Supplier search
6	Battery charger	TP4056 with protection, USB-C	1	20	60	115	Quartz Components | Harish Projects
7	Battery	Single-cell 3.7 V, 500 mAh LiPo	1	100	200	330	Supplier search
8	Regulator	AP2112K-3.3 V bare IC	1	10	20	30	Supplier search
9	Passives	Resistors, capacitors and headers	1 set	80	130	180	Supplier search
10	Carrier PCB	Custom PCB	5	150	225	300	PCBWay | LionCircuits
11	Switch and button	Slide switch and push button	1 set	10	20	30	Supplier search
12	Wiring/connectors	Jumper wires and battery connector	1 set	40	70	100	Supplier search
13	Band and enclosure	Elastic, hook-and-loop, PETG print	1 set	150	220	300	Supplier search

Low total	Typical total	High total	Spread
₹1,910	₹2,695	₹3,535	₹1,625 (≤ ₹2,000)

Important sourcing caveat: MAX30205 pricing is especially uncertain. The listed low/typical/high figures are target estimates, not a verified live quote; confirm a compatible breakout is available at that price before ordering. Shipping is excluded.

Design notes: GY-521 is the MPU6050 breakout board (typically I²C address 0x68 when AD0 is low). The ESP32 DevKit already includes a 3.3 V regulator, so the separate AP2112K may not be needed in the first USB-powered prototype. TP4056 is a charger, not a full load-sharing power-management circuit. Verify battery polarity, protection, and charge current.

Supplier links open the named supplier homepage or a product/search page; availability and prices may change. Verify exact module specifications before purchasing.
